

Aero Course Offering AV 2025-2026

FALL	WINTER	SPRING
Ae/APh/CE/ME 101A Fluid Mechanics Instructor: Pullin	Ae/APh/CE/ME 101B Fluid Mechanics Instructor: Dimotakis	Ae/APh/CE/ME 101C Fluid Mechanics Instructor: Lozano-Duran
Ae/AM/CE/ME 102A Mechanics of Structures and Solids (taught concurrently with Ae/Ge/ME 160a) Instructor: Lapusta	Ae/AM/CE/ME 102B Mechanics of Structures and Solids Instructor: Ravichandran	Ae/AM/CE/ME 102C Mechanics of Structures and Solids Instructor: Pellegrino
Ae 103a Aerospace Control Systems Instructor: Amir Rahmani	Ae 103b Aerospace Control Systems Instructor: Amir Rahmani	
Ae/APh 104A Experimental Methods - Instructor: Dabiri	Ae/APh 104B Experimental Methods - Instructor: Austin	Ae/APh 104C Experimental Methods - Instructor: Austin
Ae 105A Aerospace Engineering - Instructor: Campagnola	Ae 105B Aerospace Engineering - Instructor: Watkins	Ae 105C Aerospace Engineering - Instructor: Watkins
Ae/ME 118 Thermodynamics Instructor: Dimotakis Course cancelled		
Ae 121A Space Propulsion- Instructor: Polk	Ae 121B Space Propulsion - Instructor: Polk	Ae 121C Space Propulsion - Instructor: Polk
Ae 150A Aerospace Engineering Seminar - Instructor: Austin	Ae 150B Aerospace Engineering Seminar - Instructor: Austin	Ae 150C Aerospace Engineering Seminar - Instructor: Austin
Ae/Ge/ME 160a Continuum Mechanics of Fluids and Solids Instructor: Lapusta	Ae/Ge/ME 160b Continuum Mechanics of Fluids and Solids Instructor: Bhattacharya	

Aero Course Offering AV 2025-2026

Ae 201b Advanced Fluid Mechanics Instructor: Pullin Course cancelled		
Ae 208A GALTIC Colloquium - Instructor: Gharib	Ae 208B GALTIC Colloquium - Instructor:	Ae 208C GALTIC Colloquium - Instructor:
		Ae 215 Dynamic Behavior of Materials: Instructor: Ravichandran
	Ae/CE221 Space Structures Instructor Pellegrino	
	Ae 240 Special Topics in Fluid Mechanics: Vortex flows in Nature and Industry. Instructor: Gharib	
	Ae/ACM/ME 232a Computational Fluid Dynamics Instructor: Colonius	Ae/ACM/ME 232b Computational Fluid Dynamics Instructor: Meiron
	Ae233 Hydrodynamic Stability Instructor: Meiron	
	Ae 239A Turbulence Instructor: Lozano-Duran	Ae 239B Turbulence Instructor: Bae
	Ae/AM/CE/ME/Ge 265 Static and Dynamic Failure of Brittle Solids and Interfaces, from the Micro to the Mega Instructor: Rosakis
